

14. A process according to claim 13, wherein the solution is warmed to 30°C to 60°C.
15. A process according to claim 14, wherein the solution comprises 2-methyl-5-methylsulfonyl-4-(1-pyrrolyl)benzoylguanidine methanesulfonate.
16. A process according to claim 14, wherein the solution comprises N-[2-methyl-4,5-bis-(methylsulfonyl)benzoyl]guanidine hydrochloride.
17. A process according to claim 14, wherein the solution comprises 4-isopropyl-3-methylsulfonylbenzoylguanidine methanesulfonate.
18. A process according to claim 14, wherein lowering the temperature to the freezing temperature takes place over from 10 minutes to 4 hours.
19. A process according to claim 14, wherein lowering the temperature to the freezing temperature takes place over from 30 minutes to 2 hours.
20. A process according to claim 14, wherein lowering the temperature to the freezing temperature takes place over from 30 minutes to 1 hour.
21. A process according to claim 14, wherein the freezing temperature is down to -70°C.
22. A process according to claim 13, wherein the freezing temperature is about -50°C.
23. A process according to claim 14 further comprising drying the solution after the lowering of the temperature.
24. A process according to claim 14, wherein the filtering is sterile filtering.
